

Application guideline

We are happy that you are interested in NewSchool. Our School is a lab, an art studio in which we have the opportunity to experiment. Each Talent will explore its strengths and learn, what motivates him or her. We achieve this through listening and responding to each other and to approach challenges with curiosity and determination.

In order to make this philosophy a reality, everybody has to contribute his/her part. What is your contribution to NewSchool? Please answer the following questions handwritten and in complete sentences.

- How did I hear about NewSchool?
- Why do I want to go to NewSchool?
- What are my interests?
- What kind of projects would I like to do? What do I find appealing?
- What can I contribute to the team?

We are looking forward to read from you!
Kind regards

The NewSchool Team
